PROFILE

Passionate mobile app developer with a solid foundation in full-stack development. Experienced in building cross-platform apps using **React Native**, **Node.js**, and modern databases, focusing on clean UI/UX and real-world problem solving.

EDUCATION

Paschimanchal College	Pokhara, Nepal
Bachelor's in Computer Engineering	
Little Buddha, Mahendranagar	Kanchanpur, Nepal
+2 Science	
Adarsh Vidhya Niketan, Mahendranagar	Kanchanpur, Nepal
Secondary Education Examination (SEE)	

TECHNICAL SKILLS

Languages: JavaScript, Python
Mobile: React Native, Expo CLI
Web: Node.js, React,
Databases: MongoDB, PostgreSQL, Prisma ORM
Tools: Git, GitHub, Postman
Other: Linux,Docker, Mobile UI/UX Design

PROJECTS

PillReminder - Healthcare App | *React Native, Node.js, PostgreSQL* — Ongoing
- Medication reminder app with notifications, dosage tracking, and history.
- Responsive UI built in **React Native (Expo)**; secure backend in **Node.js**.
- Data management with **PostgreSQL** and **Prisma ORM**.

HomeSolution- On-Demand Home Service App | *React Native, Node.js, Geolocation API* — Completed
- Local service booking app with geolocation and real-time tracking.
- Implemented authentication, booking, and payment features.
- Clean UI/UX focusing on user experience and accessibility.

Expense Tracker App | *React Native, Local Storage, Data Visualization* — Completed
- Personal finance app with expense categorization and budgeting.
- Charts and graphs for spending insights.
- Offline-first design with smooth animations and responsive UI.

Chat Room App | *React Native, Node.js, WebSocket* — Completed
- Real-time chat application allowing instant messaging between users.
- Built using **React Native** frontend and **Node.js** backend with WebSocket integration.
- Supports multiple chat rooms and live notifications.

E-Commerce App | *React Native, Firebase* — Completed
- Full-featured shopping app with authentication, product catalog, cart, and order management.
- Backend powered by **Firebase** including Firestore database, authentication.
- Smooth user experience with responsive UI and secure payment integration.

Achievements & Certifications

Academic: Solid foundation in software engineering.
Technical: Proficient in mobile development and backend technologies.
Projects: 3+ apps with full-stack implementation.
Self-Learning: Active in exploring new frameworks and best practices.

Additional Information

Languages: English (Fluent), Nepali (Native), Hindi (Conversational)
Interests: Mobile App Development, UI/UX, Open Source, Tech Community
Availability: Seeking full-time internship; open to remote work and flexible hours.
